Segments-Page 4 Alan kite surfs, skateboards, bikes, dives, and explores space as he learns about Triangles, Quadrilaterals, Pentagons, Hexagons, Heptagons, Octagons, Nonagons, and Decagons. These shapes surround Alan in his daily life, and he is so excited to give you a tour of real-world polygons! The smooth beat and positive vibes of this song and video will be the perfect addition to your 2-D Geometry unit, and it would a challenge not to move when you hear this original jam. This worksheet is a great resources for the 5th, 6th Grade, 7th Grade, and 8th Grade. Identify Triangles Worksheets This Triangle Worksheet will produce twelve problems for identifying different types of triangles. Basic instructions for the worksheets Each worksheet is randomly generated and thus unique. Click the image to be taken to that Triangles Worksheets. You can choose between between whole numbers or decimal numbers for this worksheet. Use a protractor to evaluate the angle measure of each triangle to classify it as acute, obtuse and right triangle. The answer key is automatically generated and is placed on the second page of the file. Identifying Triangles Based on Sides and Angles Classify each triangle based on sides and then classify further based on angles. Triangle Inequalities of Angles Worksheets This Triangle Worksheet will produce triangle angle inequality problems. Triangle Angle Sum Worksheets This Triangle Worksheet will produce triangle angle sum problems.
